**Preventative Maintenance includes but is not limited to:** Calibration (calibration gas charge is separate based on reactive or non-reactive gas required for calibration), visual and functional inspection, cleaning of unit including disassembly and reassembly of unit for ultrasonic board cleaning (as needed) to prolong the life of the instrument. Verification of alarm set points and auto calibration features (if activated). Verification of data-logging features (if activated). Inspection of provided accessories verifying they are working or need replacement. Additional Labor (billable in 1/2 hr. increments) may be required for units needing major service. Calibration certificate is included providing as-found, as-left calibration data. Replacement parts not included, but will be charged at 10% discount from standard price.
