

Experts you can trust

THE BENEFITS OF: Buying New, Buying Certified Pre-Owned, Renting

BUY NEW

Purchasing your equipment new allows you to have the instrumentation you need on hand, and available whenever need be. You are covered by the full manufacturer warranty, and Premier Safety can help with calibration and maintenance needs.

Premier Safety provides comprehensive service for environmental instruments and respiratory equipment, including warranty work and preventative maintenance programs. Our factory trained technicians restore all equipment to manufacturers' specifications and complete service documentation is provided on all work.

BUY CERTIFIED PRE-OWNED

Industrial Scientific Certified Pre-Owned (CPO) gas monitors give you virtually all the durability, reliability, and dependable performance of a brand-new gas monitor at a lower price.

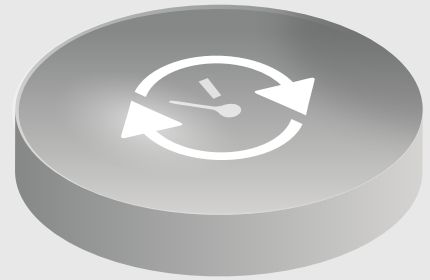

Only gas detectors that pass a rigorous multi-point inspection, including intrinsic safety approvals, are included in this program. CPO monitors are certified once they pass a factory inspection checklist to ensure that all components perform as originally designed, and then are backed by a one-year warranty.

Available CPO Instruments:

- ▶ MX6 iBrid®
- ▶ Ventis® MX4
- ▶ GasBadge® Pro
- ▶ Tango® TX1

Need help with calibration and maintenance? **Premier Safety** can complete any necessary servicing by our certified technicians.

RENT

Renting from **Premier Safety** allows you to operate the newest models and have the confidence in knowing the equipment you're using will get the job done. You also gain all the advantages of using like-new equipment without the expense and responsibility of calibrating it or having to conduct annual re-certifications as required by many manufacturers.

Maintenance is handled by our certified technicians to ensure your rental equipment is performing at peak condition.

When using our easy return process, the rental is over the day the equipment is released to UPS or when you drop it off at any of our Premier Safety rental locations!
